

### What is it?

AnswerGarden is an online service that you can use to make word clouds. You can ask one question in the service to which people respond. The answers form a word cloud.

### Challenge level

Making a word cloud in AnswerGarden service is easy.

You just need your own AnswerGarden space, i.e. room. You can make that in a couple of minutes.

### Ideas for the classroom:

- Ask people about their favourite food or favourite movie.
- Ask people which city they would like to travel to?
- Ask a question about nature, history or mathematics.
- Ask people how they feel.

### Preparation:

- Prepare your own AnswerGarden space.
- Take the room number from the address line.
- You can also save a QR code that allows people to access your AnswerGarden space.
